

Greenspan were selected to design and build a unique, one-off themed adventure golf course. The chosen theme was mountains of the world. The course is made up of 12 themed holes, with each hole boasting an impressive scaled version of a famous mountain. The course tells a story of each mountain with interesting facts offering an educational element as well as fun for all.

The course is edged with a smart decked seating area for those wishing to relax, to watch on while the rest of the family enjoy and exciting game.

The course has seen an impressive throughput since opening and has been an excellent addition to the venue.

SPECIALIST FEATURES:

- Detailed and realistic Rockwork
